SMART The Reliable and Up-to-Date Photographer

Our Patients Recommend Us.

If you see a person wearing frames that look something like the above you will know they were not fitted by Goodhue. We take pride in fitting frames perfectly as well as lenses.

Did You Ever Think You Should Wear Glasses:

When your eyes tire, and when you cannot continue for any length of time to regard small objects, as in reading;

when you involuntarily frown or partly close the eyes when looking at an object;

when things "swim" or become dim after being looked at for some time; when the eyes ache, smart, or water; when your eyelids get inflamed often, or when you have pain in the eyeball, orbit temples or forehead; when you have any nervous derangement that cannot be otherwise accounted for, call and have your eyes tested by

A. F. Goodhue,

Graduate Optician

Fort Fairfield,
Opp. Post Office.

Do not let the matter of expense keep you from visiting us. Sight is as precious to you as life itself and we test the eyes free of charge.

COLBY COLLEGE

WATERVILLE, MAINE.

The College was chartered in 1818. It is most favorably situated in a city of about 10,000 inhabitants, at the most central point in Maine, in a region unsurpassed for beauty and healthfulness. It offers a classical course with 70 electives, also a course without Greek, leading to the degree of Ph. B.

The library contains 35,000 volumes and is always accessible to students. The college possesses a unique Physical Laboratory, a large Geological Museum, and is the repository of the Maine Geological Collection. A new and thoroughly equipped Chemical Laboratory was opened in September 1899. There is a gymnasium with baths, and an elegant cinder-track.

The preparatory department of the College consists of four affiliated academies: (1) Coburn Classical Institute, owned by the college, Waterville; (2) Hebron Academy, Hebron, (Oxford County); (3) Ricker Classical Institute, Houlton, (Aroostook County); (4) Higgins Classical Institute, Charleston, (Penobscot County).

Education

is a good thing; everybody should at least have a high school education. But we have something equally as necessary in furnishing a house as an education is in fitting the mind. We refer to our full and complete line of

Having bought the balance of W. L. McDonald's stock of Boots and Shoes, I shall proceed to close out the same at one-half price. You cannot afford to miss this sale.

H. R. DAVIS.

Fertilizers

The best fertilizers for farmers are manufactured by the two oldest and most reliable Fertilizer Companies in New England, The Bowker Fertilizer Company and The Bradley Fertilizer Company. The Bowker Company are not in the combine and are independent to make prices on their high quality goods that will give the farmers full value for their money.

The Bradley Company, owning, as they do, more stock in the combine than any other company, are holding out special inducements to their agents to secure the trade of farmers for their old reliable brands, manufactured at the Bradley works.

I am now prepared to make better cash prices than any other agent in Presque Isle on the higher grade goods, will give the farmers more Nitrogen, Phosphoric Acid and Potash for their money than any other man can possibly give.

The Question of Reliability

Enters into all Drug Store purchases. If the thing purchased does not produce the desired result, you are very apt to say that it is not good and pure. Very likely you are right, but there must be a place where one can purchase reliable drugs. The man who does our buying knows who he is trading with and knows what pure drugs are. The result is that our stock is always pure. A purchase from our stock will therefore produce the result intended. We want you to remember this. Our prices are not any higher than are charged at any other store but in the difference in quality rests our superiority.

Pure Drugs is not all we sell for we make a specialty of stationery and school supplies.
